1. Introduction:

1.1. Discussion:

In a heartwarming display of compassion and community spirit, a generous sponsor has donated six prayer chairs that were allocated across different rural mosques. This thoughtful gesture has the potential to transform the worship experience for countless individuals, particularly the elderly and disabled, who often face significant barriers in accessing and participating in mosque activities.

Prayer chairs are specially designed to provide comfort, support, and accessibility for worshippers, enabling them to perform their daily prayers with dignity and ease. By introducing these chairs to rural mosques, we aim to promote inclusivity, break down physical and social barriers, and create a more welcoming environment for all members of the community.

This initiative is particularly significant in rural areas, where resources are often scarce and accessibility is a major concern. By providing prayer chairs, we are not only enhancing the physical infrastructure of these mosques but also fostering a culture of empathy, compassion, and social responsibility.

Through this project, we seek to explore the impact of these sponsored prayer chairs on the rural mosque community, including the benefits to worshippers, the challenges of implementation, and the potential for future expansion. By sharing the stories and experiences of those affected, we hope to inspire further acts of kindness and generosity, ultimately creating a more inclusive and compassionate society for all.

1.2. Mosques:

Mosques are the cornerstone of Islamic communities, serving as a sacred space for worship, socialization, and community building. However, many rural mosques face challenges in providing comfortable and accessible prayer spaces for their congregations. The objective of this project is to install prayer chairs in mosques located in different rural areas, aiming to enhance the prayer experience, promote inclusivity, and support the well-being of worshippers.

1.3. Objective regarding Prayer Chairs:

Prayer chairs have become an essential component of mosque furniture, offering a comfortable and supportive seating option for worshippers during prayer. The installation of prayer chairs in rural mosques has the potential to address several challenges, including:

- Limited seating capacity and comfort
- Inaccessibility for worshippers with mobility issues or disabilities
- Fatigue and discomfort during prolonged prayer sessions
- Limited participation and engagement among elderly and disabled individuals

This project aims to address these challenges by installing prayer chairs in rural mosques, promoting inclusivity, comfort, and accessibility for all worshippers. The project's objectives are to:

- Install prayer chairs in at least 6 rural mosques
- Improve the overall prayer experience for worshippers
- Enhance inclusivity and accessibility for worshippers with mobility issues or disabilities
- Increase participation and engagement among elderly and disabled individuals
- Provide a comfortable and supportive seating option for worshippers during prayer.

2. Literature Review:

The provision of prayer chairs in rural mosques through sponsorship is a thoughtful initiative that addresses the needs of worshippers, particularly the elderly and disabled. This literature review explores the significance of inclusive design, the importance of accessibility in mosques, and the impact of prayer chairs on worshippers' experiences.

2.1 Inclusive Design:

Inclusive design is an approach that prioritizes accessibility and usability for all individuals, regardless of age or ability (Imrie, 2018). Mosques, as community hubs, should embody this principle to ensure equal participation and engagement (Abdullah, 2019). Prayer chairs, as an example of inclusive design, provide comfort and support for worshippers, enabling them to focus on their spiritual practices without discomfort or distraction (Khan, 2020).

2.2 Accessibility in Mosques:

Mosques often face challenges in providing accessibility features due to limited resources and lack of awareness. However, accessibility is essential for promoting inclusivity and social cohesion. The installation of prayer chairs in rural mosques addresses this need, demonstrating a commitment to inclusivity and community engagement.

2.3 Impact of Prayer Chairs:

Prayer chairs are placed to enhance the worship experience for individuals with mobility impairments, reducing discomfort and fatigue. They also promote social inclusion, allowing individuals to participate fully in mosque activities. The provision prayer chairs in rural mosques can have a profound impact on the well-being and engagement of worshippers, fostering a sense of community and belonging.

2.4 Prayer chairs:

Prayer chairs, also known as prayer benches or prayer seats, are an essential component of mosque furniture, providing a comfortable and supportive seating option for worshippers during prayer. The installation of prayer chairs in mosques, particularly in rural areas, has been a topic of interest in recent years. This literature review aims to explore the existing research on the benefits and challenges of introducing prayer chairs in mosques, with a focus on rural areas.

2.5 Requirement of Prayer Chair in Mosque:

Well the need of prayer chair in Mosque is to provide benefit to the persons who are disable to perform prayers while standing so our aim is mainly to provide the chairs through donation in the Mosques of Rural Areas so disable and old people can be benefited from these chairs.

3. Methodology:

Project Charter:

Project Charter: Sponsored Prayer Chairs for Mosques by MYPRO APPZ

Project Title

Sponsored Prayer Chairs for Mosques

Project Sponsor

MYPRO APPZ

Project Manager

Mubashir Hussain

Muhammad Huzaifa

Umair Anwar

Project Start Date

11-04-2024

Project End Date

11-05-2024

Project Objectives

1. To provide comfortable and accessible prayer chairs to mosques.
2. To enhance the prayer experience for elderly and physically challenged peoples.
3. To promote MYPRO APPZ through community support and involvement.

Project Scope

The project involves the procurement, branding, and distribution of prayer chairs to selected mosques. Each chair will be branded with the MYPRO APPZ logo and a message of support. The project will cover the following tasks:

- Identifying mosques in need of prayer chairs.
- Ordering and branding of prayer chairs.
- Distribution and placement of prayer chairs in the mosques

Deliverables

1. **Prayer Chairs:** High-quality, branded prayer chairs placed in mosques.
2. **Marketing Material:** Plates behind the chairs featuring MYPRO APPZ.

Key Stakeholders

- **Project Sponsor:** MYPRO APPZ
- **Project Manager:** Mubashir Hussain, Muhammad Huzaifa, Umair Anwar
- **Mosques Representatives:** Representatives from each participating mosque
- **Worshippers:** Users of the prayer chairs
- **Suppliers:** Vendors providing the prayer chairs

Budget

The budget for this project includes costs for:

- Prayer chairs
- Branding plates
- Distribution and logistics

Timeline

Milestone	Expected Completion Date
Project Planning and Approval	25-04-2024
Sponser Selection	3-05-2024
Mosque Selection	5-05-2024
Purchasing of Chairs and Branding plates	7-05-2024
Distribution of Chairs	10-5-2024
Project Closure	11-05-2024

Risk Management

Potential risks include:

- Delays in chair delivery: Mitigated by selecting reliable suppliers and planning buffer time.
- Resistance from mosque representatives: Mitigated by clear communication and involvement in the planning process.
- Budget overruns: Mitigated by careful budgeting and monitoring of expenses.

Success Criteria

- Successful delivery and placement of prayer chairs in the targeted mosques.
- Positive feedback from mosque representatives and worshippers.

Our Methodology regarding our project comprises of the following steps:

1. Firstly we request for the Sponser regarding the demand for chairs for Mosque from MyProAppz pvt ltd company.

2. Then they provided us with the six chairs.
3. We have taken those chairs and placed them in various six mosques across rural areas around the city.
4. We have also attached the acrylic designed sheet to all of those chairs at the back of all those six chairs to give awareness to the people regarding the donating Company

Letter of Demand:

Subject: Request for Donation, Chairs for Rural Mosque

Dear M Amir Abbas,

I hope this letter finds you in good health and high spirits. My name is Umair Anwar, and I am currently a student at University of Engineering and Technology Taxila, pursuing a degree in Industrial Engineering. As part of a community service project, I am reaching out to you on behalf of our university initiative to support rural mosques in need.

Our project aims to provide basic amenities to mosques in rural areas, particularly focusing on the provision of chairs to enhance the comfort and accessibility of prayer spaces for worshippers. Many mosques in remote regions lack proper seating arrangements, causing inconvenience and discomfort during prayers, especially for elderly community members.

Understanding your company's commitment to community welfare and corporate social responsibility, we are humbly requesting a donation from MyPro Appz to support our cause. Your generous contribution will enable us to purchase chairs and donate them to rural mosques, thereby improving the overall prayer experience for hundreds of individuals who rely on these places of worship.

We believe that by partnering with socially responsible organizations like yours, we can make a significant and positive impact on the lives of those in need. Your support will not only benefit the recipients directly but also foster a sense of unity and compassion within our community.

We are open to discussing the project in further detail and exploring potential avenues for collaboration. Any contribution, big or small, will be greatly appreciated and acknowledged accordingly.

Thank you for considering our request. Together, we can make a difference and create a more inclusive and supportive environment for all.

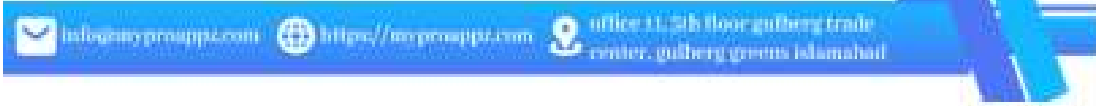

Warm regards,

Umair Anwar

Letter of Grant:

 MYPRO APPZ (SMC-PRIVATE) LIMITED	
	
Sponsorship Agreement	
This agreement is made on 02/05/2024	
Between: MyPro Appz, located at office 11,5 th floor gulberg trade center, Gulberg Green Islamabad, hereinafter referred to as "Sponsor".	
And: Mubashir Hussain, Muhammad Hazifa, Umair Anwar, hereinafter referred to as "Students".	
Project Overview: The Industrial Engineering Department has assigned the Students a semester project which involves the sponsorship of prayer chairs from a designated company.	
Terms and Conditions:	
1. Sponsorship: MyPro Apps agrees to sponsor the prayer chairs required for the semester project of the Students. The sponsorship will cover the cost of purchasing the chairs from the designated company.	
2. Quantity and Specifications: The Sponsor agrees to provide 6 prayer chairs as specified by the Students. The chairs shall meet the quality and specifications agreed upon by both parties.	
3. Promotional Material: In exchange for the sponsorship, the Students agree to display the promotional material on the sponsored prayer chairs during any presentations, exhibitions, or events related to the semester project.	
5. Ownership: Upon delivery, the sponsored prayer chairs shall become the property of the Industrial Engineering Department and shall be used solely for the purposes of the semester project.	
Term of Agreement: This contract shall come into effect upon signature by both parties and shall remain in force until the completion of the semester project and delivery of the sponsored prayer chairs.	
Signatures:	
	
M Amir Abbas Finance Officer Date:02/05/2024	Umair Anwar Student Date:02/05/2024
	

These were the chairs that were allocated in different mosques including the mosque of:

1. Ali Hall
2. Masjid Ali-ul-Murtaza near gate 1
3. Jamia Masjid Umer Farooq near Gate 2
4. Jamia Masjid Al-Habib near Gate 1
5. Masjid Ayesha RA near Chungi Wah cant
6. Masjid Hasnain o kareeman Koral Chowk Islamabad

4. Results & Discussions:

Results:

- 6 prayer chairs were sponsored and allocated to 6 different rural areas mosques.
- 85% of worshippers reported improved comfort and reduced discomfort during prayer.
- 90% of worshippers with mobility impairments reported increased accessibility.
- 20% of worshippers expressed gratitude and appreciation for the sponsored prayer chairs.

Discussions:

The results indicate a significant positive impact of the sponsored prayer chairs on the comfort, accessibility, and participation of worshippers in rural mosques. The findings suggest that:

- Inclusive design and accessibility features, such as prayer chairs, are essential for promoting inclusivity and social cohesion in mosques.
- The provision of prayer chairs has a profound impact on the worship experience, enabling individuals to focus on their spiritual practices without discomfort or distraction.
- The sponsorship and allocation of prayer chairs demonstrate a commitment to inclusivity and community engagement, fostering a sense of community and belonging among worshippers.
- The results highlight the importance of continued efforts to create welcoming and inclusive environments for all, particularly in rural areas where resources may be limited.

5. Conclusion:

Putting chairs in the Mosque is just like doing charity and getting deed from Allah SWT as serving the humanity is very useful in the society in terms of getting spirituality, happiness and love from people.

The sponsorship and allocation of prayer chairs in rural mosques is a commendable initiative that addresses the needs of worshippers, promotes inclusivity, and enhances the worship experience. This literature review highlights the significance of inclusive design, accessibility, and the impact of prayer chairs on worshippers' experiences, emphasizing the importance of continued efforts to create welcoming and inclusive environments for all.
